ABOUT ME:

Problem-driven Computer Science Engineering student with a strong foundation in programming and **project management**. Passionate about solving and practicing real-world problems by applying **Data Structures and Algorithms**, and eager to leverage technical expertise, problem-solving skills, and a growth-oriented mindset in dynamic **software** and **AI** development roles. Seeking a Software Developer Intern role in a fast-paced, innovation-focused engineering environment.

ACADEMICS:

CVR College of Engineering, Ibrahimpattam	2023 - 2027
Bachelor of Technology (B.Tech.) in Artificial Intelligence and Machine Learning	8.83
Narayana Jr College	2023
Intermediate/12th	98.4%

TECHNICAL SKILLS:

Programming Languages : Python, Java, JavaScript, C, C++

Frontend : HTML, CSS, React, Streamlit

Backend : Node.js, Express.js, FastAPI, REST API, WebSockets, Python, JavaScript

Database : MySQL, Supabase (PostgreSQL), Firebase, PL/SQL

Tools : Git, GitHub, VS Code, Docker, JWT

Core CS Concepts : DBMS, Computer Networks

SOFT SKILLS:

Problem Solving, Team Collaboration, Adaptability, Time Management, Project Management, Presentation Skills.

Projects:

Currency Converter and GDP Growth Visualization | HTML, CSS, JavaScript, APIs

- Created a web app integrating 3+ APIs for real-time currency and GDP comparisons.
- Designed and implemented a well-structured web application using HTML, CSS, and JavaScript, APIs (Forex API, World Bank API, and Exchange Rates API)
- App link : [Currency Converter & GDP Growth Display](#)
- GitHub : [Currency Converter Git Link](#)

EduPulse (AI-Learning-Analytics-Portal) | Streamlit, CSS, Supabase(PostgreSQL), LLMs

- Integrated the Groq LLM API and designed effective prompts to generate study modules, quizzes, assignments, cheat sheets, and personalized exams based on each student's learning needs.
- Developed the backend and analytics system with secure authentication, PostgreSQL database integration, interactive Plotly dashboards, automated exam evaluation, and certificate generation.
- GitHub : [Ai-Learning-Analytics-Portal](#)

Certifications and Achievements:

>**Basic Certifications:** Python, Java, C, HTML, CSS, JavaScript, DBMS

>**Oracle Certified:** Database Programming with SQL, Database Design

>**DSA:** Solved **300+** problems from across multiple coding and learning platforms.

>**AI/ML Virtual Internship Certification** [View](#)
